PROJECTS

M.I.N.E.R.V.A.: Lead Developer and Project Manager, Thesis 2026
github.com/robertgeraldsenasin/MINERVA

- Led a 4-person team building a Unity 6 Android serious game that places SHS students in a simulated election-season social feed to practice spotting rumors.
- Built the AI content pipeline behind the game, curating 653 cards into eight 56-card classroom decks with zero real-person leakage.

Error Propagation in Iterative GenAI Text-to-SQL Refinement: Corresponding Author 2026
github.com/robertgeraldsenasin/ProgLang_ErrorPropagation

- Logged 240 LLM turns across 4 models and found that 0 of 48 iterative repair attempts reached a correct SQL query under minimal feedback. Submitted to IJACSA with A. J. Salva and Dr. Alexander Hernandez.

ACMX: Frontend Developer, FEU Tech ACM Oct 2024 - Jan 2025

- Built frontend sections of the FEU Tech ACM chapter website with HTML and CSS (unreleased).

EXPERIENCE

Student Assistant, FEU Institute of Technology 2023 - Present
900+ hours over three years under the FEU Tech scholarship, alongside a full academic load.

iCARE (Online & Onsite Student Services)

- Ran the iCARE Virtual Office when scheduled, handling online requests from students and faculty, and supported the onsite office near the library.
- Facilitated and assisted professors with their online review sessions as needed.

Facilities

- Provided onsite support across campus facilities offices.
